

## **Learning and Support**

Every school has Learning and Support Teams. They are usually made up of an executive member of staff, the class teacher, the Learning and Support Teacher, The School Counsellor and often the School Learning and Support Officer. This team meets regularly to plan for and provide direct and timely support and specialist assistance to students in regular classes with additional learning and support needs and their teachers.

As a starting point, the Team will need to gather information from various sources, as listed above, to gain an accurate profile of the student and how best to support him/her. The Team will often meet with parents and other agencies in order to collaborate and build an insight into other aspects of the student's life.
